

REPORTS

1. Harvey, J., J. Deacon, B. Tsai, and C. Monismith. *Fatigue Performance of Asphalt Concrete Mixes and Its Relationship to Asphalt Concrete Pavement Performance in California*. Asphalt Research Program, CAL/APT Program, Institute of Transportation Studies, University of California, Berkeley, January 1996.
2. Pavement Research Center, *Test Plan for CAL HVS 1*, CAL/APT Program, Institute of Transportation Studies, University of California, Berkeley, May 1995.
3. Harvey, J. T., L. du Plessis, F. Long, S. Shatnawi, C. Scheffy, B. Tsai, I. Guada, D. Hung, N. Coetzee, M. Reimer, and C. L. Monismith. *Initial CAL/APT Program: Site Information, Test Pavement Construction, Pavement Materials Characterizations, Initial CAL/HVS Test Results, and Performance Estimates*. Pavement Research Center, CAL/APT Program, Institute of Transportation Studies, University of California, Berkeley, June 1996.
4. Harvey, J. T., L. du Plessis, F. Long, J. A. Deacon, I. Guada, D. Hung, and C. Scheffy. *CAL/APT Program: Test Results from Accelerated Test on Pavement Structure Containing Asphalt Treated Permeable Base (ATPB)—Section 500RF*. Pavement Research Center, CAL/APT Program, Institute of Transportation Studies, University of California, Berkeley, June 1997.
5. Harvey, J. T., L. Louw, I. Guada, D. Hung, J. Prozzi, F. Long, L. du Plessis. *CAL/APT Program: Test Results from Accelerated Pavement Test on Pavement Structure Containing Untreated Aggregate Base—Section 501RF*. Pavement Research Center, CAL/APT Program, Institute of Transportation Studies, University of California, Berkeley, April 1999.
6. Harvey, J. T., I. Guada, C. Scheffy, L. Louw, J. Prozzi, and D. Hung. *CAL/APT Program: Test Results from Accelerated Pavement Test on Pavement Structure Containing Asphalt Treated Permeable Base—Section 502CT*. Pavement Research Center, CAL/APT Program, Institute of Transportation Studies, University of California, Berkeley, November, 1998.
7. Harvey, J. T., D. Hung, J. Prozzi, L. Louw, C. Scheffy, and I. Guada. *CAL/APT Program: Test Results from Accelerated Pavement Test on Pavement Structure Containing Untreated Aggregate Base—Section 503RF*. Pavement Research Center, CAL/APT Program, Institute of Transportation Studies, University of California, Berkeley, January, 1998.
8. Weissman, S. L. and J. L. Sackman. *Heavy Vehicle Simulator: Simulations of the Effects of Wheel Pressure on an Unbonded Layered Asphalt Concrete Pavement*. Symplectic Engineering Corporation, Report to Pavement Research Center, University of California at Berkeley, August 1996.
9. Weissman, S. L. and J. L. Sackman. *Heavy Vehicle Simulator: Three Dimensional Simulations of Tire Pressure Applied to a Weakly Bonded Layered Asphalt Concrete Pavement*. Symplectic Engineering Corporation, Report to Pavement Research Center, University of California at Berkeley, March 1997.

10. Harvey, J. T., B. Tsai, F. Long, and D. Hung, *CAL/APT Program—Asphalt Treated Permeable Base (ATPB): Laboratory Testing, Performance, Predictions, and Evaluation of the Experience of Caltrans and Other Agencies*. Pavement Research Center, CAL/APT Program, Institute of Transportation Studies, University of California, Berkeley, November 1997.
11. de Beer, M. and C. Fisher. *Contact Stresses of Pneumatic Tires Measured with the Vehicle-Road Surface Pressure Transducer Army (VRSPTA) System for the University of California at Berkeley (UCB) and the Nevada Automotive Test Center (NATC)*. Vols. 1 and 2., Transportek, CSIR, South Africa, June 1997.
12. Harvey, J. T. and L. Popescu. *Rutting of Caltrans Asphalt Concrete and Asphalt-Rubber Hot Mix Under Different Wheels, Tires, and Temperatures—Accelerated Pavement Testing Evaluation*. Pavement Research Center, CAL/APT Program, Institute of Transportation Studies, University of California, Berkeley, January 2000.
13. Pavement Research Center, *Test Plan for CAL/APT Goal 3*, CAL/APT Program, Institute of Transportation Studies, University of California, Berkeley, March 1997.
14. Harvey, J. T., N. Coetzee, and L. Louw. *CAL/APT Program—Construction of the Goal 3 Overlays and Recommendations for Improved Overlay Performance in California*. Pavement Research Center, CAL/APT Program, Institute of Transportation Studies, University of California, Berkeley, November 1999.
15. Harvey, J. T., M. Bejarano, A. Fantoni, A. Heath, and H. C. Shin, *Performances of Caltrans Asphalt Concrete and Asphalt-Rubber Hot Mix Overlays at Moderate Temperatures – Accelerated Pavement Test Evaluation*, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, December 2000, 237 pp.
16. Bejarano, M. O., J. T. Harvey, D. Mahama, M. Russo, P. Preedonant and A. Ali, *Comparison of Drained and Undrained Flexible Pavement Structures Under Conditions of Wet Base; Summary of Accelerated Pavement Testing Evaluation*, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, December 2001, 55 pp.
17. Harvey, J. T. and F. Long. *CAL/APT Program—Comparison of Caltrans and AASHTO Pavement Design Methods*. Pavement Research Center, CAL/APT Program, Institute of Transportation Studies, University of California, Berkeley, November 1997.
18. Monismith, C. L., and F. Long. *Mix Design and Analysis and Structural Section Design for Full Depth Pavement for Interstate Route 710*. Report No. TM-UCB PRC-99-2. CAL/APT Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, June 1999.
19. Monismith, C. L. and F. Long. *Overlay Design for Cracked and Sealed Portland Cement Concrete (PCC) Pavement—Interstate Route 710*. Report No. TM-UCB PRC-99-3. CAL/APT Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, September 1999.

20. Deacon, J. A., C. L. Monismith, and J. T. Harvey. *Pay Factors for Asphalt-Concrete Construction: Effect of Construction Quality on Aging Costs*. Report No. TM-UCB-CAL/APT-97-1. Pavement Research Center, CAL/APT Program, Institute of Transportation Studies, University of California, Berkeley, April 1997.
21. Deacon, J. A., C. L. Monismith, J. T. Harvey, and L. Popescu, *Pay Factors for Asphalt-Concrete Construction: Effect of Construction Quality on Agency Costs*, Report No. TM-UCB-PRC-2001-1, PPRC Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, February 2001, 97 pp.
22. Deacon, J. A., L. Popescu, and C. L. Monismith, Report to *Participants in Pay Factors, July 24, 2001*, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, December 2001, 34 pp.
23. Deacon, J. A., J. T. Harvey, A. Tayebali, and C. L. Monismith. "Influence of Binder Loss Modulus on the Fatigue Performance of Asphalt Concrete Pavements." *Journal of the Association of Asphalt Paving Technologists* 66 (1997): 633-668.
24. CAL/APT Contract Team. *Test Plan for CAL/APT Goal LLPRS—Rigid Phase III*. CAL/APT Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, April 1998.
25. Roesler, J., L. du Plessis, D. Hung, D. Bush, J. Harvey. *CAL/APT Goal LLPRS—Rigid Phase III: Concrete Test Section 516CT Report*. CAL/APT Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, April 1999.
26. Roesler, J., C. Scheffy, A. Ali, and D. Bush. *Construction, Instrumentation, and Testing of Fast-Setting Hydraulic Cement Concrete in Palmdale, California*. CAL/APT Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, April 2000, 157 pp.
27. K. E. Kurtis and P. Monteiro. *Analysis of Durability of Advanced Cementitious Materials in Rigid Pavement Construction in California*. CAL/APT Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, April 1999.
28. P. Monteiro, J. Roesler, K. E. Kurtis, and J. T. Harvey, *Accelerated Test for Measuring Sulfate Resistance of Hydraulic Cements for Caltrans LLPRS Program*. CAL/APT Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, April 2000.
29. Shomglin, K., P. Monteiro, and J. T. Harvey, *Accelerated Laboratory Testing for High Early Strength Concrete for Alkali Aggregate Reaction*, PPRC Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, July 2001, 30 pp.

30. Heath, A. C. and J. R. Roesler. *Shrinkage and Thermal Cracking of Fast Setting Hydraulic Cement Concrete Pavements in Palmdale, California*. CAL/APT Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, December 1999.
31. du Plessis, L. *Environmental Influence on the Curling of Concrete Slabs at the Palmdale HVS Test Site*. Report No. CR 2000/38 CSIR (Transportek) Report to Pavement Research Center, University of California, Berkeley by CSIR, South Africa, June 2000.
32. Roesler, J. R., J. T. Harvey, J. Farver, and F. Long. *Investigation of Design and Construction Issues for Long Life Concrete Pavement Strategies*. CAL/APT Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, September 1998, 67 pp.
33. Harvey, J. T., J. Roesler, J. Farver, and L. Liang. *Preliminary Evaluation of Proposed LLPRS Rigid Pavement Structures and Design Inputs*. FHWA/CA/OR-2000/02 CAL/APT Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, May 2000, 208 pp.
34. Lee, E. B., C. W. Ibbs, J. T. Harvey, and J. R. Roesler. *Constructability Analysis for Long Life Concrete Pavement Rehabilitation Strategies*. CAL/APT Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, July 1999.
35. Lee, E. B., J. R. Roesler, J. T. Harvey, and C. W. Ibbs. *Case Study of Urban Concrete Pavement Reconstruction and Traffic Management for the I-10 (Pomona, CA) Project*. Report to Innovation Pavement Research Foundation (IDRF), Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, May 2000.
36. Lee, E. B., C. W. Ibbs, J. T. Harvey and J. R. Roesler, *Constructability Analysis for Long Life Asphalt Concrete Pavement Rehabilitation Studies*, PPRC Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, July 2001.
37. Hung, D. and Harvey, J. T., *Validation of CalCool with Field Data*. Pavement Research Center Technical Memorandum No. TM-UCB-PRC-2000-3, Pavement Research Center, University of California, Berkeley, CA July 2000. (N.B. CalCool now termed MultiCool)
38. Symplectic Engineering Corporation. *LEAP Version 1.0*. 1998.
39. Symplectic Engineering Corporation. *Extraction of Elastic Properties from Falling Weight Deflectometer Data*. Report to CAL/APT Program, Pavement Research Center, June 2000.
40. Blab, R. "Introducing Improved Loading Assumptions into Analytical Pavement Models Based on Measured Contact Stresses of Tires." *1999 Accelerated Pavement Testing International Conference Presentations*. Reno, NV, October 18-20, 1999. (CD-ROM).
41. Harvey, J. T., A. Chang, and J. Roesler. *Climate Regions for Mechanistic-Empirical Pavement Design in California and Expected Effects on Performance*. CAL/APT Program,

- Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, June 2000.
42. Symplectic Engineering Corporation. *A Viscoplastic Constitutive Law for Asphalt Concrete Mixes at Elevated Temperatures; A Finite Deformation Formulation*. Report to CAL/APT Program, Pavement Research Center, June 2000.
 43. Monismith, C. L., J. T. Harvey, F. Long, and S. Weissman. *Tests to Evaluate the Stiffness and Permanent Deformation Characteristics of Asphalt/Binder—Aggregate Mixes: A Critical Discussion*. Report No. TM-UCB PRC-2000-1. CAL/APT Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, June 2000.
 44. Theyse, H. *The Stiffness, Strength and Performance of Unbound Aggregate*. Report No. CR 2000/35. Report delivered to Pavement Research Center, University of California, Berkeley by CSIR, South Africa, June 2000.
 45. K. R. Grote. "Update on GPR Work for CAL/APT Project." Pavement Research Center Memorandum, June 2000.
 - 46.
 47. Harvey, J. T. and A. Chong. "Pavement Survey Technical Memorandum TM UCB-CAL/APT-99-1." Memorandum to L. Orcutt, Caltrans Maintenance dated February 9, 1999.
 48. Harvey, J. T. and A. Chong. "Summarization of Caltrans Test Section Prioritization Meeting." Memorandum to S. Massey and L. Orcutt, Caltrans Maintenance, dated March 18, 1999.
 49. (Jeremy Lea Report)
 50. Popescu, L. "Overview on PRC Database Development." Pavement Research Center Memorandum, June 2000.
 51. Gillen, D., J. T. Harvey, D. Cooper, and D. Hung. *Assessing the Economic Benefits from the Implementation of New Pavement Construction Methods*. CAL/APT Program, Pavement Research Center, Institute of Transportation Studies, University of California, Berkeley, March 2000, 84 pp.
 52. (JTH letter on AAPT paper)
 53. Partnered Pavement Research Center, *HVS Test Plan for Goal 7, Dowel Bar Retrofit Rehabilitation of Rigid Pavements*, Institute of Transportation Studies, University of California, Berkeley, November 2000.
